

Interkulturelles Forum in deutscher/englischer Sprache

## **Intercultural Forum**

In this series of events, staff member of the Christophorus Hospiz Verein e.V. exchange their concepts and experience with colleagues from neighboring countries.

What do they have in common? They work palliative care, either in nursing, social work, medicine, pastoral and spiritual care as well as in complementary therapies. Palliative specialist come home or look after residents with a limited life expectancy in the nursing home and the hospice. The caring staff addresses the young and the old, people with and without a migration background, with and without disabilities. It is good to know what hospice work and palliative care meant to be.

**You are cordially invited to take part in this international exchange.**

Our guests on the panel include colleagues from Europe and the world. Their origins and language represent the cultural diversity of our residents and patients. The topics are taken from everyday life.

It is about the self-image of the professions involved, their specific tasks and challenges in the work.

*During the Intercultural Forum we speak German and / or English, if necessary, it will be translated. Because of the long distances, we use the online conference format.*
